WORK EXPERIENCE

Portfolio Website (React + Tailwind) 2024

- Developed a fully responsive personal portfolio showcasing skills, projects, and social links.
- Added animations and micro-interactions using Framer Motion for a modern UI.
- Deployed using Vercel with custom domain integration.

E-Commerce Product Landing Page 2025

- Designed a modern product landing page with product cards, pricing.
- responsive grid layouts using tailwindfor mobile/tablet screens.
- Integrated interactive UI elements such as sliders, modals, and dropdown menus.
- Improved page performance using optimized images and clean code.

To-Do List App (MERN stack) 2025

- Developed a simple and interactive to-do app where users can add, edit, and delete tasks.
- Implemented state management using React hooks.
- Stored tasks in localStorage for persistent data.
- Designed a minimal UI with smooth UX.
